

Mezeo Ready Cloud Gateway Solution: TwinStrata CloudArray™

Enable Seamless iSCSI Access to Mezeo Based Cloud Storage with a Virtual Appliance

BUSINESS BENEFITS

- **Lowers expense** – significantly reduce costs by replacing traditional tape backups, D2D backups while enabling offsite copies.
- **Ensures business continuity** – enable faster restores without tape to any location.
- **Provides affordable storage** – reduce the cost of storage using the cloud for backup, archive and replication.
- **Reduces complexity** – Provides integration with Mezeo enabled storage clouds from any server with iSCSI support.

*The Mezeo Ready
TwinStrata CloudArray
solution enables iSCSI
access to cloud storage.*

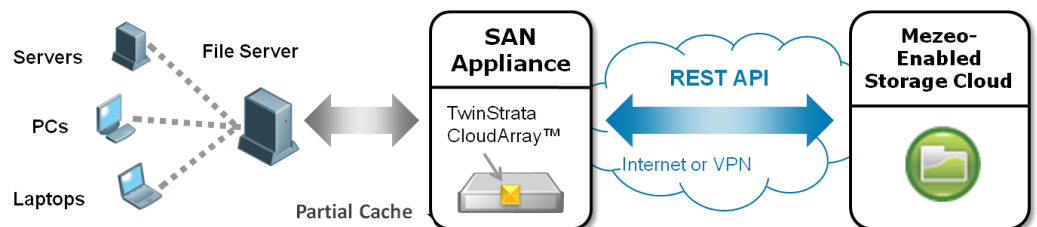

Today's budget-conscious businesses are looking for affordable alternatives to address the continuous growth of storage needs without compromising data security and availability. The Mezeo and TwinStrata integrated cloud storage solution enables organizations to automate backup, archive and replication to Mezeo based cloud storage by acting as an iSCSI target to your existing business applications.

TwinStrata CloudArray is Cloud SAN software that integrates with any Mezeo Ready storage cloud. CloudArray enables multiple use cases:

- **Maintain backup copy of files in cloud:** automate file backups to one or more clouds.
- **Enable file archiving:** meet compliance regulations by automating file archives with specified policy settings.
- **Automate file replication:** enable data replication for business applications or cloud to cloud replication.
- **Provide disaster recovery:** ensure offsite access to files, business analytics.

As a Mezeo Ready solution, TwinStrata CloudArray Cloud SAN Software integrates with the Mezeo Cloud Storage Platform, enabling a portal to any Mezeo Ready storage cloud. For a list of Mezeo Ready public storage cloud Premier Hosting Providers, visit www.mezeo.com/mezeo-ready.

Mezeo Software

3900 Essex Lane
Suite 600
Houston, Texas
USA

P: +1 713.244.0850

F: +1 713.244.0851

FEATURES

Access

- Supports host interface: iSCSI.
- Supports hosts: Windows, Linux, Mac, HP-UX, VMware ESX/ESXi.
- Supports backup and restore applications: CA ARCserve, Oracle RMAN, PHD Virtual esXpress, Symantec Backup Exec, Veeam, Vizioncore vRanger Pro.
- Supports application replication: Microsoft Exchange 2010, Microsoft SharePoint, SQL Server.
- Supports NAS, File and Archive: Symantec FileStore, CIFS Windows Server, Oracle Sun/ZFS.

Performance

- Allows quick access using locally cached data volumes.
- Offers advanced fully configurable caching policies and multiple simultaneous caches and caching policies.
- Supports caching storage interfaces: SAN, NAS, internal, SSD.
- Enables asynchronous replication and space-efficient snapshots.
- Offers data compression.

Easy to use

- Installs in under an hour.
- Includes full CLI and GUI interfaces.

Secure

- Provides 256 AES-bit encryption at rest, SSL in flight.

Flexible

- Enables pay as you go storage.
- Target any Mezeo Ready Premier Hosting Provider with on-premise virtual appliance.
- Provides seamless integration with applications, physical and virtual servers.
